

GENERATION® BLOCK PRE-BAITED STATION

Testimonial

"It's because the pre-pack stations are quick and easy! Their small size makes them really simple: You can follow your customer with several in your bag and ask them to show you where they have seen mice before. Check and inspect the area to find the best placement and put down a pre-baited station. Then carry on with your customer to the next hot spot! Having the stations individually labelled is also a major feature. All the information needed by the customer is on every single station."

Terry Miller, Panther Termite Specialist, QLD

Practicality Features:

- Carton of 60 Generation® pre-baited stations
- Each pre-baited station contains 20 grams Generation® Block (Difethialone, 25ppm)
- Ask us about private labelling

AEGIS[®] PRO MOUSE

Fastest-to-service Bait station

AEGIS[®] PRO MOUSE IS BUILT FOR SPEED

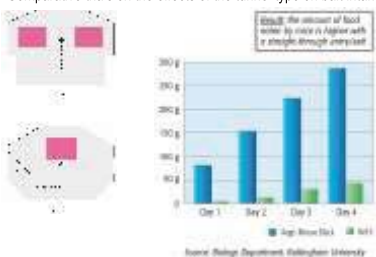

- Quick and easy key entry system
- Double bait capacity
- Robust and Tamper Resistant
- Option of Clear or Black lid

WHAT MAKES THE AEGIS[®] PRO MOUSE BAIT STATION DIFFERENT:

- Two baits for maximum rodent control
- See through tunnel design encourages rodent traffic
- Short travel to bait promotes bait feeding (see graph)
- Unique and secure locking mechanism
- Accessible - Quick servicing with an easy-to-open lid - just a 1/4 turn of the key
- Sequential barcoding enables quick identification of individual bait stations for their service history (Clear lid AEGIS PRO Mouse only)

Comparative trials on the effects of the tunnel type on bait intake

- Rat bait station key end
- Mouse bait station key ent

LID OPTIONS TO FIT ANY SITUATION:

The BLACK LID

- Indoor or outdoor situation
- UV stabilised construction
- Outstanding durability in hot and cold conditions

The CLEAR LID

- Convenient - Clear Lid allows easy viewing of bait and see-through design encourages rodent feeding
- Exclusive - SecurePoint technology for minimising bait dispersal risk

THE FULL AEGIS[®] KIT COMES COMPLETE WITH:

- Black lid : Carton of 20 bait stations + 2 keys
- Clear lid : Carton of 12 bait stations + 3 keys

AEGIS[®] STICK & GO[™] CABLES PROVIDE MORE SERVICE OPTIONS FOR YOU

- Bait station securing cable is easy to use and quick to install
- Strong, flexible 40cm long marine grade stainless steel cable
- Reliably adheres to all clean surfaces with the double-sided tape end
- Provides outstanding hygiene standards for your clients

Place cable along the hinge or insert loophole through slot on bait station side and slip taped end through the loop to secure

Peel the backing off the tape end and apply firmly to cleaned surface

GENERATION[®] BLOCK PRE-BAITED STATION

Fastest Mouse Control Solution

GENERATION[®] PRE-BAITED STATION IS

- Ready-to-go pre-loaded with 20 g Generation Block
- Robust and tamper resistant
- Streamline design for quick placement
- Ideal for mouse control in domestic situations, office spaces, etc.

WHAT MAKES GENERATION[®] PRE BAITED STATIONS DIFFERENT?

- Contains the highly palatable Generation[®] block that mice can't resist

- Pre-baited means time saving. No more need to spend time on filling up bait stations - just focus on their optimum placement.
- Bait is firmly secured inside sturdy tamper-proof bait station for reduced risk of non-target accidental poisoning.
- Increased longevity as bait protected from humidity
- Small size and streamline design allow to place it everywhere in minimum amount of time.
